Description

Exceptional house amidst an oasis of peace and tranquility. This modern house was built following comprehensive construction codes. It offers special insulation of floor, walls and windows which also have a built- in sun protection layer, ideal to shield your art work and furniture. The house was built on a 3 m elevated level and consists of 2 floors with great living/dining, double height ceilings with great window front, kitchen, large bedroom suite with terrace. The first floor is currently used as another large living space with terrace which can easily be converted into the main bedroom suite, plus a further bedroom and bath. It affords incredible views over the Lagune. The spacious and well kept garden offers great space for entertaining with a roofed BBQ area and amphitheater or pool. Option to purchase additional 1200m2 with guesthouse and storage facilities, which allows for the construction of a hotel boutique or an apartment block.
