Descripción

Located in the bucolic, well known Olive ROUTE, this 10 hectares (24 acres) organically certified olive plantation could be the ideal income producing country life style, just 30 minutes from Punta del Este. It offers 1800 olive trees of Italian origin (frantoio, canino, maurino, leccino amp corantina) producing a premium blend extra virgin olive oil. The farm has a permanent water supply, a modest accommodation with electricity and well water, 5 horses and a tractor Massey Ferguson. Good investment.
